PROFESSIONAL TOOLS

**henry**<sup>TM</sup> Professional Tools was officially launched in 2018 and we are proud to be a home-grown Singapore brand.

We offer a wide range of high quality tools at affordable prices, with flexibility and versatility for applications across many industries.

Our experienced Tool Engineers understand what is required for everyday usability and they have developed our range of tools with the following key aims:

- Functionality as the top consideration
- High quality manufacturing for product endurance and durability
- Ergonomically designed for craftsmen's maximum comfort during usage

We believe our design and manufacturing expertise will empower you to reach new goals and look forward to many years of serving our customers!
